

RAKESH KUMAR SINGH

DATA ENGINEER - ASSOCIATE CONSULTANT - CAPGEMINI INDIA

Faridabad, Haryana | +91 - 7289075059 | arohan.kumar97@gmail.com

SUMMARY

Results-driven Data Engineer with over three years of experience in Big Data, Machine Learning, Data Science, and Cloud Technologies. Demonstrates strong leadership and teamwork capabilities in collaborative settings, consistently delivering exceptional service to clients. Committed to tackling challenges and making a lasting impact in dynamic and fast-paced environments.

WORK EXPERIENCE

Everest Insurance

Data Engineer

May 2024 – Present

- Developed and maintained data pipelines using TPA, SoR, USPS, etc., to ADLS Data Lake.
- Enhanced efficiency by debugging production notebooks and streamlining workflow processes.
- Authored comprehensive documentation for data pipelines and ETL processes.
- Optimized SQL queries for performance, resulting in faster data retrieval times.

Hindustan Unilever

Data Engineer

August 2023 – April 2024

- Engineered Intelligent Pipelines for parallel data loading with periodic scheduling.
- Re-constructed 200+ data pipelines with comprehensive functionality, including triggers and integration runtimes.
- Merged multiple Azure Data Pipelines, improving efficiency by 40%.
- Debugged Databricks notebooks, resolving issues and fixing failures.

Burberry London

Big Data Engineer & Developer

January 2022 – August 2023

- Managed CRs for Burberry Live Reports, ensuring modifications were accurate.
- Collaborated with Development Team for follow-up tasks, ensuring error-free reports.
- Liaised with Burberry Business users for approval before production deployment.
- Conducted rigorous Unit and Regression Testing to ensure robustness and reliability.

Millennial Garage

Internal Project Lead

August 2021 – December 2021

- Developed an EDA Dashboard with interactive graphs and ML algorithms using Python (Plotly, Streamlit, Seaborn).
- Integrated regression, decision trees, and random forest models for enhanced analytics.
- Implemented data cleaning and validation techniques to ensure accuracy and reliability.
- Launched the dashboard internally for colleagues.

SEO Design Pvt. Ltd.

Full Stack Web Developer

February 2020 – July 2020

- Designed, developed, maintained, and deployed multiple web applications, managing both front-end and back-end tasks.

QUALIFICATIONS

Lingaya's University, Faridabad

Bachelor Of Technology in Computer Science and Engineering

August 2016 – July 2020

TECHNICAL SKILLS

- **Softwares:** Anaconda, Power BI, MS Excel, Visual Studio
- **Cloud Platforms:** Azure Data Factory, Azure Synapse, Azure SQL
- **Management Tools:** Confluence, Jira
- **Programming Languages:** SQL, Python, Pyspark, Spark, Mongo DB, Scala, Hadoop, HTML, CSS, PHP,
- **Data Visualization:** Plotly, Streamlit, Seaborn
- **Big Data Technologies:** Databricks, Hadoop, Spark, ADLS

CERTIFICATES

- **Introduction To Big Data** - Learned about the terminologies and fundamental concepts underlying big data challenges, applications, and systems. ([See Certificate](#))
- **Associate Data Analytics** - Learned how to extract a useful result out of raw data with the use of Python Libraries, Excel, Tableau and R Programming. ([See Certificate](#))
- **Azure Fundamentals (AZ-900)** - Microsoft Certification on Azure Fundamentals certification which confirms my grasp of essential Azure concepts and services. ([See Certificate](#))
- **IBM Big Data** - Learned about BIG Data tools including Hadoop, Hive, HBase, and Pig to manage and analyze large datasets, furthering my capabilities in the realm of data processing and analytics. ([See Certificate](#))
- **Data Engineer Capgemini Certified** - A professional certified in data engineering, skilled in designing, building, and maintaining data infrastructure and pipelines. ([See Certificate](#))

LANGUAGES

- **English:** Full Professional Proficiency
- **Hindi:** Native or Bilingual Proficiency

ONLINE PROFILES
